GAMMA

RELIABLE PROTECTION WITH COMFORT FEATURES

Gamma product range contains two face shield models, offering premium protection for your eyes and face in working environments where respiratory protection is not needed.

They offer maximum vision and safety for welding, grinding and inspection processes. Choose from passive or automatic lens models including market leading features for comfort and usability.

BENEFITS

- Flip-up welding visor
- Passive welding lens 102 x 74 mm (100P)
- SA 60 automatic welding filter (100A)
- 198 cm² grinding visor with 170° work site view
- GapView welding visor setting
- Axis regulator tunes eye-line perspective
- Certified for welding and grinding work
- Magnifying lens options

PRODUCT OPTIONS

Gamma 100A

Gamma welding shield for working environments where respiratory protection is not needed. Contains the SA 60 ADF lens and all Kemppi comfort features.

Gamma 100P

Gamma welding shield for working environments where respiratory protection is not needed. Contains the shade 11 passive welding filter and all Kemppi comfort features

FEATURES

Mounted ADF remote control

Inboard mounted ADF remote control for reliability and convenience. Remote control adjustment of the SA 60 or XA 74 automatic welding lenses features three silicon rubber selector switches. The large switches select parameter values up or down and the small switch selects either the parameter type, or a long press activates the work lights on the XFA model.

ComFlex headband

ComFlex headband offers comfort and flexibility for the perfect fit to your individual head shape and preferences. Even distribution of the suspended weight lowers pressure to sensitive areas of the head, minimizing fatigue and headgear related headaches.

GapView feature

GapView switch sets a clear view beneath the welding visor providing a narrow 15 mm gap and clear vision of the working area. Ideal for work piece setting and tacking prior to welding. An excellent feature with passive welding lens models and ADF equipped models, where adjacent welding arcs can trigger nuisance ADF activations.

ACCESSORIES

SA 60

Auto-darkening welding filter with a clear vision and large view. LiFE+ Color ADF technology provides greater clarity of vision, and remote control buttons make adjustment simple without taking the helmet off. Shade range: 5, 8, 9-13.

TECHNICAL SPECIFICATIONS

Gamma 100A

Weight	775 g
Operating temperature	-5...+55 °C
EN 175	S-B
Welding filter	SA 60
View size	102 x 60 mm
Filter dimension	Customized
Shade range	5, 8, 9-13
ADF light state	4
ADF switching time	0.1 ms
LiFE+ Color (yes/no)	Yes
Grinding fuction (yes/no)	No

Gamma 100P

Product code	9873080
Weight	735 g
Operating temperature	-5...+55 °C
EN 175	S-B
Welding filter	Passive
View size	101 x 73 mm
Filter dimension	109 x 86 mm
Shade range	11
LiFE+ Color (yes/no)	No
Grinding fuction (yes/no)	No

WWW.KEMPPI.COM

Kemppi is the pioneering company within the welding industry. It is our role to develop solutions that make you win business. Headquartered in Lahti, Finland, Kemppi employs over 800 welding experts in 17 countries and has a revenue of more than 150 MEUR. Our offering includes welding solutions - intelligent equipment, welding management software and expert services - for both demanding industrial applications and ready-to-weld needs. Local expertise is available via our global partner network covering over 60 countries.
