

MMA / Stick - MINI120 120Amp Inverter Welder

Features

- Latest IGBT Inverter Technology
- DC MMA / Stick
- Output Current 30 - 120A
- No Load Voltage 60V
- Over Current Protection
- Thermal Overload
- Generator Compatible 5.5Kva
- 60% Duty Cycle
- Only 1.8KG
- Low Noise Fan

You've never seen a Stick welder as compact as Mitech's MINI120! This robust inverter MMA/Stick welding machine is a great, low cost and portable stick welding machine for DIY Welders. A machine that's packed with features you can expect from a quality welder. It's excellent arc stability provides easy operation in all positions in MMA. It's compact size and portability makes it suitable for a wide range of applications.

The MINI120 offers you the best of both worlds— small enough to carry, yet powerful enough to get the job done. The MMA characteristics allow quality Arc welding with a widerange of electrodes ranging from 1.6mm- 3.2mm GP or Low Hydrogen electrodes. The MINI120 packs a punch being able to weld Steel, Stainless steel & Aluminium, the perfect choice for general fabrication at home. Low noise fans for quiet and smooth operation. The MINI120 is a machine suitable for the DIY welder at home or even the commercial industry to get into hard to access enviroments. Various applications including Stainless steel fabrication, site welding, repair and maintenance or projects at home.

Package Includes

- Mitech MINI120 Machine
- 1Mtr Clamp Type Stick Lead
- 1Mtr Earth Lead
- 10Amp Plug

Optional Accessories

- Carry Case
- Scratch TIG Torch
- Welding Helmets
- Stick Electrodes
- TIG Consumables
- TIG Wires
